Other Business/Action/Discussion Items:

- CW, in his capacity as Highway Superintendent, seeks permission from the Board to purchase a “StreetScan” program and support using Chapter 90 Highway funds, for which it is eligible. CW explains that StreetScan will provide a comprehensive inventory of all paved town road and structures, including bridges, streetlights, culverts, signage and other road related items and will provide a condition report and priority plan for addressing maintenance and updates going forward. CW states that a number of MA communities are utilizing the program and it is now eligible for reimbursement from the State. The cost of the program and survey is \$16,210. Following a discussion, Board approves the purchase. CW will have the Board execute the paperwork at a future meeting.
- CW asks for and receives permission to make paving improvements to the turnaround and parking area across from the Post Office. CW notes that the Town does not own this property but it has historically been used as a parking area and turnaround and that it is a mess. National Grid owns this property. Following a discussion, Board approves the recommended minor improvements to drainage and blacktop.

6:30 PM: There being no additional business to come before the Board, PS makes a motion to adjourn the meeting and to convene to the gymnasium for the Annual Town Meeting to begin at 7:00 PM. EM seconds the motion. Vote taken, 3-0 in favor.
